Our guiding principles make us not only a highly effective service provider to people with developmental and acquired disabilities, but also a quality employer.

Behavioral Specialist

We seek a highly professional individual to administer, score, analyze and interpret diagnostic tests for our clients in cognitive and emotional areas. Will also participate in the creation of individualized habilitation programs designed to maximize development in key skill areas. Requires a BA/BS in Psychology or related field, experience working with people with developmental disabilities, and an understanding of Applied Behavior Analysis principles and implementation strategies for positive behavioral techniques. Warm and caring interpersonal skills are essential. Benefits include 4 weeks paid time off per year, health and dental insurance, and life insurance, to name a few.
